Other Places to Walk in the Area

Kerry Ridgeway

The ancient drovers' route from Wales to the Midland and South of England through Bishop's Castle. It is a bridleway with spectacular views for most of the route.

Offa's Dyke

The major defence work built by King Offa in the 6th century and now followed by a major long distance path. In this area the path follows the actual dyke closely and the dyke can be clearly seen as a distinct feature on the landscape. The route is very hilly as it travels south to Knighton, where the Offa's Dyke Association has a centre and its headquarters.

Stapeley Hill

Rugged upland summits to the north with fascinating stone circles the most famous of which is Mitchells Fold. Thousand of years of human activity can be seen in the landscape and the well marked trails make the historic remains easy to explore. Leaflet available.

The Stiperstones

On the other side of the A 488. The ridge of rocky, quartzite tors stands proud in the wilderness of this moorland. This is Mary Webb country and is rich in legend and folklore. Call at the Bog Visitor Centre (open during holidays) to find out more about this area. There are many excellent walks and leaflets available.

The Long Mynd

The next ridge of upland gives great moorland walking opportunities and brilliant views – Snowdon can be seen on a clear day! Church Stretton is on the far side.

Bury Ditches

One of the best preserved Iron Age hill forts in Britain is on the top of this hill covered by Forestry Commission woodland. There is sympathetic deciduous planting and lots of trails for walking and mountain biking.

Please Remember the Country Code

- ❖ Enjoy the countryside and respect its life and work
- ❖ Leave livestock, crops and machinery alone.
- ❖ Keep to public paths across farmland.
- ❖ Help to keep water clean and protect wildlife, plants and trees.
- ❖ Leave gates as you find them.
- ❖ Take special care on country roads.
- ❖ Keep dogs under close control.
- ❖ Use gates and stiles to cross fences
- ❖ Do not make unnecessary noise.
- ❖ Guard against all risks of fire.

Farming in this area is mainly beef and lamb production with herds of cattle and flocks of sheep on the hillsides. There is arable land, partly to support the livestock farming. Peas and beans are grown as manure crops to fix nitrogen.

Bulls loose in fields with cows are NOT dangerous. Cows with calves can be, especially if you have a dog with you. Give them plenty of space and if the cows try to chase the dog, let the dog go.

Remember to wear suitable clothing and footwear, especially in wet weather. The climate can change quickly in the hills!

The Bishop's Castle Area

The imposing 18th century Town Hall at the top of the High St. has recently been totally renovated and is the Visitor Information Centre for the area.

Available are Bishop's Castle's main town leaflet which includes a map, "Where to stay" and "Shopping and Services Guide, Where to Eat and What to Do" booklets (all the information is also at www.bishopscastle.co.uk/tourism) as well as the Walking for Pleasure leaflets and many other local publications.

The hall is the venue for markets and many other activities including concerts, workshops, private parties and talks.

The parish church at the bottom of the town is Victorian with a 13th century Norman tower and an interesting graveyard. The main street contains an architecturally diverse array of old houses and shops, many of them medieval properties with newer fronts! There is an interesting selection of places to eat, drink and buy food for picnics and more formal meals. The town has 2 breweries, at the Six Bells Inn opposite the church and The Three Tuns Brewery across the road from the Old Market Place, a paved area with good seating overlooked by the Powis Coat of Arms.

The House on Crutches Museum at the top of the High Street and The Railway and Transport Museum in School Lane, both open at weekend from Easter to October, help illustrate all aspects of local history. The Heritage Resource Centre in Chapel Yard is the main research arm of the museums.

The Walks in this Leaflet

The walks in this leaflet offer you three alternatives to choose from depending on your ability, motivation and time available. By careful reading of the instructions you can "mix and match" parts of the routes to form alternative walks of your own that match your capabilities and interests.

Walk 1

Is a short walk which is fairly flat and ideal for those with only a short time to spare. The route guides you out of town across the fields to Oakeley Farm then along track and road beyond The Villa. Finally you head back to Bishop's Castle across several fields and alongside the College Sports Field and the College.

Walk 2

For those with more time and energy this takes you further east and higher up through the woods where are rewarded with excellent views of the local habitations and surrounding countryside from Oakeley Mynd. You continue out to Totterton and past Pell Wood for the downhill homeward stretch to the end of Stank Lane where you rejoin Walk 1.

Walk 3

This third option offers you a lot more for only a little additional effort. It takes you southward to the village of Lydbury North down an intriguing sunken lane. The village presents the opportunity of a little rest and revitalisation in the local hostelry (Powis Arms), an interesting small church and a Post Office/Shop where you can pick up a snack or something cool on a hot day. The final leg is a pleasant walk up to the Conery and then to Stank Lane, the old drovers route to Craven Arms to join the latter stages of Walk 2.
